Dinnershow

Mamma Mia the Party

Follow-Me TRACK-iT is our innovative automated performer tracking solution. This system enables powerful auto-tracking capabilities.

Track performers using any moving light, and send PSN or OSC positioning information to audio, video and automation systems.

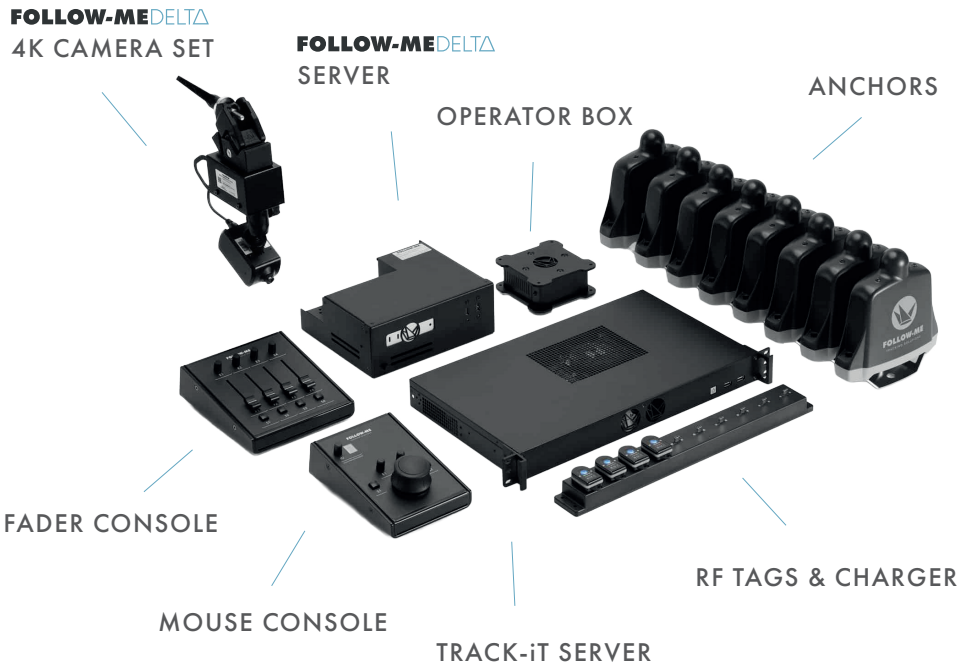

TRACK IN FULL 3D

WORK WITH ANY BRAND & TYPE

TRACK ANY STAGE LAYOUT

INTEGRATE WITH ARTNET, sACN, PSN & OSC

FOLLOW-ME TRACK-IT SYSTEM

EXTEND ON DELTA

Build upon your Follow-Me DELTA system with Follow-Me TRACK-iT

Scalable performer tracking
Extending on a Follow-Me DELTA Unlimited system with TRACK-iT allows you to use both manual and auto tracking simultaneously, autonomously and as redundancy.

The innovative TRACK-iT system utilizes RF tags placed on performers, communicating with anchors across the performance area. Receive accurate positioning information, creating a powerful auto-tracking system with access to all the Follow-Me DELTA Unlimited features.

Cater to the unique needs of various performances, venues, and production setups by adding more anchors to your setup when your show grows in terms of size. Add more tags to your setup when you want to track more performers and/or objects.

Exact configuration and requirements are determined upon request.

Musicalshow
Het geluk van Limburg

AUTOMATED TRACKING

The ultimate solution for performer tracking in complex productions.

SCHEDULE A DEMO

Explore the powerful features and functionality of the manual and automated Follow-Me systems.

We have official demo locations in the UK, at our HQ in the Netherlands and with all of our partners.

Send an email to sales@follow-me.com to schedule a demo.

AUTOMATED PERFORMER TRACKING

Add the Follow-Me TRACK-iT system to the FOLLOW-ME DELTA Unlimited system to unlock hybrid and full automated performer tracking.
